

IMMEDIATE RELEASE

11 JANUARY 2006

ANGEL BIOTECHNOLOGY HOLDINGS PLC
(“Angel” or “the Company”)

Angel signs contract with Millipore Bioprocessing Ltd

Angel Biotechnology Holdings plc, (AIM: ABH) the biopharmaceutical contract manufacturer, that was recently admitted to AIM, is pleased to announce a contract with Millipore Bioprocessing Ltd (Millipore) for the provision of services through 2006.

The agreement continues the long-term working relationship between Angel and Millipore which was established in 2003. Work under the agreement will be conducted at Angel’s process development and manufacturing facility in Cramlington, where the Company is headquartered. The contract will draw on Angel’s substantial experience and expertise and history of delivery. The financial terms and conditions of the agreement were not disclosed.

Gordon Sherriff, Chief Operating Officer of Angel said: “We are delighted to have the opportunity to provide services to Millipore for a further year. This reflects Angel’s commitment to forming lasting relationships with clients and to providing high quality, flexible services meeting customers’ needs. This is a core value for Angel whose objective is to offer a contemporary partnering approach to client relationships.”

Fred Mann, Technical Marketing Manager of Millipore said: “It is extremely beneficial for Millipore to be able to access such services locally in the North East of England and we are very happy to be continuing our relationship for another year.”

About Angel Biotechnology Holdings plc

Angel Biotechnology Holdings plc is a fast growing biomanufacturing company offering process development services and cGMP manufacturing to support biotechnology and pharmaceutical companies worldwide. Angel's principal activity is the manufacture and supply of materials for use in early stage drug development and pre-clinical studies, along with drug product and CMC documentation for Phases I, II and III clinical trials and the manufacture of licensed drugs or vaccines.

Angel is managed by a team that has more than 100 years' combined experience in pharmaceutical and biopharmaceutical manufacture, gained in companies such as Glaxo, SmithKline Beecham and Serologicals Inc.

Angel operates out of two sites, at Cramlington near Newcastle upon Tyne and at Pentlands Science Park, near Edinburgh.

Angel was established in 2000 and admitted to AIM in November 2005.

About Millipore
